### The Nujol Treatment as Sickness Prevention

Science, with anti-toxins, serums, and modern sanitation, has done much to prevent dangerous disease; but the diseases so checked are comparatively few. On the other hand, 90% of all diseases have one common origin-

The dangers of constipation are so far-reaching, because the blood receives poisons from an infected mass within, and carries them directly to every organ of the body; and because constipation itself keeps the system in a rundown condition so that any infectious germs from without readily gain foothold.

Keep clear of constipation and you guard against serious disease. Nujol will remove constipation and prevent

The action of Nujol is entirely different from that of any other constipation remedy. It is not a drug. Nujol softens the food waste and encourages the intestinal muscles to act naturally

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

State.

Ask Governor to Call Legisla ture to Enable Them to Get More Pay.

A. H. Roberts was asked Wed-night by the Memphis Teachers' tion to call a special session of its legislature and to include in it the matter of increasing the cof the city board of education or that teachers' salaries might the dispatch of the telegram to the rovernor, another resolution was passed, inder the terms of which a letter will be written to the governor giving him letailed information concerning the letailed information concerning the eachers' salary question in Memphia. The support of all civic organizations of Memphia, as well as the assistance of organized labor, were sought in resolutions adopted at the meeting, in which there organizations will be asked to lend their voice in petitioning the gislature for the enactment of proper significant to relieve the situation. 120 Local Unions.

Mr. Lampseu told the assembled teachers of the progress made in organizing the teachers in various cities of the country. There are at present 120 local organizations, he stated, and present indications are that there will be 500 locals by Dao, 31, 1920. He pointed out three objections which are usually raised against teachers organizing. One of these objections, he said, was that teachers belong to a morfession and should not therefore affiliate with organized labor. Union teachers feel that they are employes and can therefore properly affiliate with labor, and in view of the pitiable compensation they receive and their lack of voice in determining matters of edu-

ing in which the real conditions of refeasion exist, he declared in antring this objection mentioned by Lampson was that it would be unlifted for teachers to affiliate with on labor. He answered this by say-that taking the teachers of the ntry as a whole they feit that they very little dignity to lose. No up of people have any dignity in real sense when shey are unable to test themselves, he argued. He picted the teachers as being the least to protect themselves of any class people in the country today. The a are, he declared, that we have able to protect themselves of any class of people in the country today. The facts are, he declared that we have not been accorded that respect, whether measured in terms of money or public regard to which the character of our service entities us.

National Organization Urged. The third objection he said, was that of strike. The American Federation of Teachers does not depend upon strike to get results, but upon publicity, organization and political action, he assected

problem.

"There is only one way out, and that is to build up a nation-wide, business, protective and educational organization of the teachers of the country as embodied in the American Federation of Teachers, affiliated with the American Federation of Labor, whose thousands of votes, let us say for example—in the city of St. Louis, whose tens of thousands of votes in the state of Missouri, and whose 4,000,000 votes throughout the United States will be available for the betterment of educational conditions.

"There is no subject in which the members of organized labor are more interested than better schools and better paid and more efficient teachers. They need our co-operation in bringing about these results and we need theirs. The effective and willing support of organized labor in behalf of the teachers has been demonstrated upon numerous occasions recently, e. g., Norfolk, Madison, Memphis, St. Paul, Chicago, Washington and New York, Washington teachers have been able to get the minimum salaries of grade teachers raised over 100 per cent besides getting increases for the high school teachers.

"They have been particularly successful in securing administrative reforms, such as the reduction of the size and number of classes, the simplification and improvement of the system of rating teachers, etc.

System in New York.

System in New York.

"The New York teachers, largely through the support of organized labor, were able to get \$15,000,000 added to their salary budget. Perhaps the most substantial contribution of the American Federation of Teachers to the welfare of the teachers and the improvement of the schools has been the amendments it has been able to secure in the great educational bill now pending before congress.

"The original Smith bill vested the secretary of education with autocratic control over the schools of the country, it made no specific provision for federal aid in the payment of teachers' salaries. At the suggestion of the representatives of the A. F. of T. amendments were agreed upon providing for rederal aid in the payment of teachers' salaries and in safeguarding the control of the states and localities over their schools. Largely by reason of the vigorous support of the American Federal in of Labor this bill, now known as the Smith-Towner bill, revised is expected to case.

eration of Labor this bill, now known as the Smith-Towner bill, revised is expected to pass.

"A national organization of teachers, consolidated for protection and service, and backed by organized labor, commands the attention and deserves the respect of political parties, of capital and of the public."

Vanguard Puts Up Posters for Roll Call to Commence Nov. 2.

The first of the posters which were

The first of the posters which were placed in Mennihis and Shelby county to boost the Red Cross third annual roll call, were put up Wednesday by the vanguard of the Giri Scouts.

The work for the membership drive, which will last one week, from Nov. 2 to Nov. 9 will be started officially on Nov. 2 by a plea from the pulpits of Membhis and Shelby county's churches for a contribution during the drive. An attempt will be made to renew the 22,000 memberships which were taken out at Weach in the Red Cross last year, and to get the signatures of at least 15,000 new members to the relief organization for 1920.

Monday, Nov. 3 will be the start of the work of solicitation. It will be known as "American Legion Day," when the returned fighting men will go over the top for the Red Cross in a drive that will have as definite an objective as Gen. Pershing ever that objective is 12,000 new members, in addition to membership resewals.

Women of Membris and Shelby county met with Mrs. N. (1 Durffield, chaliman of the woman's division of the drive. Thursday morning at 10 octock, at the Satoy theater, where a three-reel Red Cross photoplay. "The Heart of Humanity," was shown. Organization for the drive was completed at this meeting.

MURDER TRIAL ON

### MURDER TRIAL ON.

BRISTOL Tene Oct 20 (Spl.)—The trial of Jasper Trimple, charged with first degree murder for the alleged tilling of Special Officer J. M. Carmack, at Kingsport, Tenn. on June 25 last, is structing considerable attention in this section. The trial will likely consume several days.

# Buy Jewelry This Christmas

—and buy it early

Know This:

No other form of gift so admirably expresses the glorious. sentiments that come with the Christmastide. The gratified longing of a gift to be cherished, to be prized as the fleeting years roll by, takes its form in

Jewelry

Know This:

Jewelers have anticipated your every want. Their stocks are brimful. Their displays already bespeak the Christmas spirit. Markets were searched weeks and months ago. Complete shipments of jewels have arrived. To buy early means buying at a time when one can duly deliberate, when one can give careful thought to the selection of a proper gift.

Know This:

Contingencies have arisen beyond all human control, that make it impossible for jewelers to be assured of reorders being given attention. There is no guarantee that stocks can be replenished. It is hardly probable. So start your buying this week. Buy for mother on Friday. For sweetheart or sister on Saturday. Schedule your buying each day in the week. Then your gifts will be bought and there will not be disappointments.

Buy Jewelry - and Buy It Early

particularly on the Linden avenue car

particularly on the Linden avenue car line.

Car No. 201, on the Linden line, last Monday morning is a good example of what we mean. There were 60 farea rung up on the fare register when we got on the car, with three other white people. We made it six-cent collections for the street car company's minion in blue on the back piatform.

Negroes filled every seat that ran crosswise, except one. Vacant also were the two small "litney" seats in the forward end of the car. This made a seating capacity for six white persons. Jammed in the aisles were negroes, black, chocolate, brownskin and high brown. They were on their way to work. White passengers, setting on the rear end of the car (pay-as-you-enter) were forced to struggle through the negroes. Unquestionably this was as distusteful to the negroes as it was to the white people.

The negro can not be blamed for the crowded condition of the street cars on the Linden avenue line. He deserves credit for working. No trouble ever emanated from a guthering of hardworking, honeat negroes. They have the right to ride to work at whatever hour they are due to report. If they fill the street car before white passengers get on, no one should hick at them.

We do not claim that the negroes take all of the seats wantonly. But if mo few white passengers are on the cars in the early morning hours, who will blame the negro working man for sitting down?

The fault is with the system. It lies within the power of T. H. Tutwiler, president of the Memphis Street Railway company before it went into the hands of a receiver, and Frank Eigin, who with Mr. Tutwiler was appointed receiver for the lines.

Why can not a fare box be installed at the front end of the Linden cars as well as at the back end? The motorman, stopping to let on passengers, could see that each one gave the octopus its six cents. This would relieve the white passengers of the necessity of standing aside and being trampled upon, as white passengers get in.

The other is to run alternate cars—

That's one solution.

The other is to run alternate caracone Jim Crow, the other for white.

A third is run enough cars on the Linden avenue line to accommodate both the white and black passengers.

While Mr. Tutwiler and Mr. Elgin

## Bitro-Phosphate

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorous in the human system is very largely responsible for this condition.

It exems to be well established that this deficiency in phosphorous may now be met by the use of Bitro-Phosphate, which can be obtained from any good druggist in convenient tablet form.

In many instances the savinilation of this phosphate by the nerve tissue soon produces a welcome chauge—herve tension disappears, vigor and strength replace weakness and lack of energy and the whole body lones its ugity follows and shrupt angles, becoming enveloped in a glow of perfect health and beauty fend the will and strength to be up and doing.

CAUTION—While the Bitro-Phosphare of the control of the strength of the cause of the control of the control of the control of the will and strength to be up and doing.

J. T. Fargason

WHOLESALE DISTRIBUTORS-MEMPHIS

ride to work in their automobiles, and derive none of the discomforts attendant upon a ride dewntown in the early morning upon their street cars, they should be public spirited enough to want to care for the public in the city where one gets his living by managing (7) a street car corporation, and the other by the grace of having graduated from a college of law.

We don't like to predict unpleasant possibilities, but should there be a raceriot on a Linden avenue street car same morning it will not be the negro who is to blame. Nor will it be the white man. It will be T. H. Tuwller or Frank S. Eigin, so surely as the sky will be blue in the spring.

We ask you to print this in justice to both the white and the black races. The menace can be removed, if T. H. T. and F. S. E. will do it.

Respectfully,

A CITIZEN WHO RIDES ON LINDEN.

### SOVIET "MYSTERY SHIP" CAPTURED BY BRITISH

HELSINGFORS, Oct. 20. (By the Associated Press.)-What is described as a Solshevik 'mystery ship,' carrying a cargo consigned to "the American legation, Stockholm, in transit to American museums," has been cantured by a British destroyer in Finnish waters and taken into Bjorko. Under a cargo of fax, it is said, was found a mass of book literature pristed in English, Pronch and German. There was also a valuable collection of art objects and films idealising soviet conditions.

### **NEW PARTS vs. HAVING** BROKEN PARTS WELDED

There is no argument. Welding broken parts is so economical, saves so much time, and, above all, is so satisfactory that buying new parts is a waste of money.

### OUR GUARANTEE

We guarantee that a welded part will never berak in the same place again. There is no better guarantee on a new part.
